

Wire Products Ltd.

Wire Products Limited

Energy Management Policy

Wire Products Limited is committed to enhancement of Energy Efficiency and Energy Management best practices viable to our facility.

Objectives:

1. Conform to Legal and regulatory requirements in respect of energy usage as stated in Energy Act 2006, Energy (Energy Management) Regulations 2012 and other statutory requirements.
2. Provide resources necessary to achieve energy efficiency.
3. Establish and maintain energy committees to spearhead the implementation of measures to achieve energy efficiency.
4. Acquire and efficiently utilize electricity and fossil fuels at the most economical way.
5. Identify training needs and train staff to ensure competence in the efficient use of energy.
6. Record and maintain energy utilization and production data for a period of ten years.
7. Acquire the most energy efficient and cost effective appliances.
8. To maintain a reporting system that gives useful, timely information to decision-makers and all other staff working at major operation areas.
9. Ensure that this policy is communicated to all employees and it shall be available for review by interested third parties.
10. Ensure that this policy is reviewed annually for its continued adequacy and effectiveness.
